**Project Proposal**

Drought Tolerant Landscape at West Valley Fire Station

**Select a Category**

Arts & Culture

**Purpose**

The Fire Station on Doyle Road and Saratoga Ave., next to West Valley Library, is a huge part of our community. Children and Families walk past it regularly but it is invisible and drab. The Novato Fire Dept. on Atherton Ave., Novato Ca., had an upgrade of drought tolerant/water wise landscape and also added a park bench that beautified the neighborhood and brought visibility to their fire station. I believe a new water-wise landscape, fencing and bench, as well as painting the exterior of the building in brighter color, would be widely appreciated by pedestrians and drivers alike and give respect to our hard working men and women of the Fire Department.

**Location in District 1**

Fire Station @ 1201 San Tomas Aquino Rd, San Jose, CA 95117
