Arts & Culture

Purpose

It will be beneficial to religious families.

Kids who have to pray have nowhere to go to pray and have to delay their prayers which becomes a big burden on them. This pushes them away from their own religion. This can be a room that is quiet, clean and dedicated to prayers for all religions. It will also be an example on how religions can coexist in society. It should have a dedicated small library and seating for small discussions. Muslims pray 5 times a day, two times happen to be during school time. Kids are usually not praying those two times or hiding to pray them by fear from other kids. If they have a place to pray, they will feel more integrated. Other religions should also be able to practice their religion in this "sanctuary" room.

This room can also be educative to the rest of the school to learn about the different religions that exist. It can have a library and other resources that can be used by everyone.
