Project Proposal

Fix pot holes/depressed pavement areas on Cypress Ave

Select a Category

Sidewalks and Public Safety

Purpose

Cypress Ave, between Stevens Creek and Judro Way has numerous pot holes and depressed areas of pavement. Although some of these have been improved recently, it does not appear to be a permanent fix. the depressed areas still exist.

I am not sure if this falls into D1 decides jurisdiction, but monies are required for the repair of this street.

Location in District 1

Cypress Ave, between Stevens Creek and Judro Way
