Project Proposal
Neighborhood Meetings and Outdoor Movie Equipment
Select a Category
Education & Technology
Purpose
<p>As a neighborhood, we are working on improving communication and increasing attendance at monthly meetings. Meetings would greatly benefit from having audio-visual equipment. This would allow visual presentations and audio to assist in large-group presentations and with people with low hearing.</p> <p>As part of bringing our neighbors together, we would also like to offer outdoor movies. This equipment will allow the neighborhood to come together each summer to attend a new neighborhood event. The equipment could also be used to assist in other existing neighborhood events, such as the Family Picnic and National Night Out.</p>
Location in District 1
The event could take place at the Shark park at Pueblo Del Dios on Payne Ave or at the field of Payne Elementary School.
