Project Proposal

back entrance area of John Muir Elementary School needs repair and improvement

Select a Category

Sidewalks and Public Safety

Purpose

The back entrance area of John Muir Elementary School is very rundown. The entrance sidewalk needs re-pavement, the fences are bare in sections, and there is an old portable bathroom standing by the entrance for years. Many students/parents pass this entrance everyday, this rundown image shouldn't be representing our community. I suggest remove the portable bathroom, repave the sidewalk, plant more plants along the sidewalks.

Location in District 1

Wisteria way at Glenmoor Way
