

**Name**

Russell Hills

**Project Proposal**

Street lighting Williams road East from Winchester Blvd to Baywood Ave

**Select a Category**

Sidewalks and Public Safety

**Purpose**

Williams Road East is a HEAVILY traveled "narrowed" 25 mph street (Average speed is 40) that has no street lighting at night and a school at one end. This makes it extremely dangerous for any pedestrians that are walking in this area at night. This is also due to the increased traffic and No speed enforcement

**Location in District 1**

Williams Road East between S Winchester Blvd and S Baywood Ave
